Earthquake	Not requested	Service Line	Not requested

AGENT NOTES / STUDENT TASKS

Task	Instructions
Task	Run a standard HO-3 quote. Coverage A is the rebuild cost ($640,000), not the purchase price ($725,000 includes the land, which isn't insured). The customer wants a home + auto bundle: mark Auto as a cross-sell product so the multi-policy discount applies (the auto is quoted separately). The central station alarm earns the protective device discount. Billing is escrow through the first mortgagee (Pay In Full). Record the Total Homeowners Premium, then re-quote with $500,000 liability and compare the premium.
